● ANNOUNCEMENTS

The [Connecticut State Department of Education \(CSDE\)](#) will be using the LAS Links Assessment for the ELP Assessments for all students in Grades K-12 for the 2021, 2022 and 2023 test administration. The CSDE believes that high-quality, comprehensive and effective English as a Second Language (ESL) and bilingual education programs are essential to acquire English language proficiency and academic proficiency for students who are English Learners (ELs). The CSDE believes that research-based instructional practices that support ELs in general education classrooms are essential while they are acquiring English and well after they have exited the intensive programs.

Participation Expectations

- Students in Grades K-12 identified as English learners/multilingual learners (ELs/MLs) participate between **January 3 - March 3, 2023**.
- Reporting Districts are responsible for testing ELs/MLs who are in PSIS who attend or are enrolled in:
 - Connecticut public schools;
 - In-state Approved Private Special Education Programs (APSEPs);
 - A Non-Approved Private School in Connecticut;
 - Judicial Centers;
 - Transition/Vocational Service Providers; and
 - Out-of-State schools.

Dually Identified Students Placed in APSEPs

- All identified students are expected to test. Special attention may be required for dually identified students based on access needs or placement.
- A list of students enrolled in APSEPs based on the PSIS collection will be provided to ELACs on **November 5, 2022**, for planning and communication purposes. These students are included in the DRC Student Management System.
- ELACs will need to work closely with district staff to identify students placed outside the district. These students are included in the Student Management System and districts determine how these students will be tested.

APSEPs Test Session Set Up

Online testing of Form F OP FT is not allowed outside of Connecticut. **Out-of-state students must use an Accommodated/Paper Test form ordered by January 6, 2023.**

- APSEP students will be listed under “Outplaced Schools” in the Student Management System to access when creating rosters.
- CT users are encouraged to practice adding in-state students outplaced to APSEPs to test sessions in the DRC Training Sandbox open **November 8 - December 2, 2022.**

The DRC Training Sandbox reflects what users will see in their live accounts for associated “outplaced schools” based on PSIS.

- District: Sales and Training District
- Site Code: 99998
- School: CSDE OUTPLACED
- Site Code: 6199
- There are 12 demo students, one for each grade in the DRC Training Sandbox.

Participation Expectations for Students Eligible for Alternate Assessments

Students who are dually identified (both an EL/ML and a student with disabilities) **and** determined by the Planning and Placement Team (PPT), using the [Connecticut Alternate Assessment System Eligibility Form](#) to participate in the Alternate Assessment System **do not participate** in the LAS Links assessment for the 2022-23 school year.

Incorrect participation will affect reporting and accountability.

The DA, SPED Director, and ELAC must work with appropriate school personnel to communicate that students eligible for the alternate assessment **will not participate in the LAS Links testing.** These students will be considered by the PPT for the new alternate ELP assessment.

CSDE Test Security Policy

Violation of test security is a serious matter with far-reaching consequences. Breaches of test security include, but are not limited to, copying of test materials, failing to return test materials, coaching students, giving students answers, and/or changing students' answers. Such acts may lead to the invalidation of an entire school district's student test scores, disruption of the test system statewide, and legal action against the individuals committing the breach. A breach of test security may be dealt with as a violation of the Code of Professional Responsibility for Teachers, as well as a violation of other pertinent state and federal law and regulation. The Connecticut State Department of Education will investigate all such matters and pursue appropriate follow-up action. Any person found to have intentionally breached the security of the test system may be subject to sanctions including, but not limited to, disciplinary action by a local board of education, the revocation of Connecticut teaching certification by the State Board of Education, * and civil liability pursuant to federal copyright law.

*See Section 10-145b(j) (1) of the Connecticut General Statutes, which reads in relevant part as follows: The State Board of Education shall revoke any certificate, authorization or permit issued pursuant to said sections if the holder is found to have intentionally disclosed specific questions or answers to students or otherwise improperly breached the security of any administration of a statewide examination pursuant to section 10-14n.

Only students who are indicated as an EL/ML are sent to DRC to be rostered in the INSIGHT System.

Do not manually add students to DRCs INSIGHT Portal

During the assessment window, CSDE exports new demographic information in PSIS to DRC daily, Monday through Friday.

LAS Links Accommodation Preparation

- Establish systematic district procedures and communicate regularly about students who are ELs/MLs and those English learners/multilingual learners who are dually identified.
- The language learning needs of students who are dually identified need to be represented at the PPT ([***Dear Colleague Letter 1/7/15***](#)).
- Accommodations used for instruction and assessment as described on the Supplementary Aids and Services section (previously page 8) of the IEP and within the Section 504 Plan may be provided to dually identified students on the LAS Links.

- ELAC MUST confirm the student has not started testing prior to or during the time accommodations are being entered.

- ELAC enters accommodations under Student Management during the LAS Links Accommodation Window:

December 5, 2022 - March 3, 2023

Procedures for Entering Student Accommodations

- Accommodations are recorded online for each subtest, for each student identified as both an English learner/multilingual learner **and** a student with a disability. These students may require one or more accommodations in at least one subtest.
- In the DRC portal, under Student Management, the ELAC will indicate **in each subject area** if a student has one or more accommodations in that subject by checking **Category 3**.
- If a change is made to demographics at any time or a change is made to accommodations while a student is currently testing, significant consequences for student testing, scoring, and reporting will occur.

This will ensure you **don’t duplicate students** in a Test Session.

Students should appear in a single test session only.

This is especially important because the Form F OP FT has 5 form sets behind the scenes that are dealt out for testing. **We will not be able to merge domains after testing.**

During Test Administration

Student Uses Test Ticket to Login

When the student is ready to take the live test, they should be given the test ticket and should click on the DRC INSIGHT App installed on the student device.

Common Problems - During Testing

- Connectivity issues – try restarting the testing device.
- Confirm students who are eligible for the alternate and **do not** test them on the LAS Links.
- Confirm accommodations and provide them at the time of testing.
- Ensure tickets are given to the correct student for each test session and do not provide tickets for the practice test.
- Teachers should actively monitor students during testing.

Reminder: No Merging

Students should appear in a single test session only.

This is especially important because the Form F OP FT has five form sets behind the scenes that are dealt out for testing.

We will not be able to merge domains after testing.

This means a student will not receive an Overall or other composite scores.

A student who does not receive an Overall score cannot exit EL/ML status for that year.

Student Mobility – Within Same District

- When student is registered in PSIS in the same district but in a new school, the student is rostered in the **same district but in a new school** in the DRC INSIGHT Portal.
- The ELAC must check the student's profile and look for the existing test ticket assigned to that student and their test-taking status.
- Test results for the student will remain at the previous school (the one where the test session/test ticket was created) in the DRC INSIGHT Portal.
- Test results in EdSight follow the student.

Student Mobility – Within Same District

- If the student started testing one subtest, the student **MUST** finish testing with the test ticket and all remaining subtests in that test session created at the previous school.
 - The test ticket should be securely provided from one school to the other so the student can resume testing. If this does not occur, the student will not receive an Overall score and the student will not be eligible to exit EL/ML status.
- If the student has not started any testing, the student can be placed in a new test session at the new school and begin testing.

Student Mobility – To a New District

- As soon as the student is registered in the PSIS in the new district in a new school, the student is rostered in the new district and a new school in the DRC INSIGHT Portal.
- The ELAC at the new district/school (student moved from one district to another) **will not** be able to view the test session from the previous facility.
- Test results for the student will remain at the previous district and school (the one where the test session/test ticket was created) in the DRC INSIGHT Portal.
- Test results in EdSight results follow the student.

Student Mobility – To a New District

- If a school has a new student from a different district – contact the ELAC from the original district first to see if the student has started testing and which subtests were taken.
- To view ELAC Contact Information:
<http://edsight.ct.gov/SASPortal/main.do>
- **If testing has started**, the same test ticket must be securely sent, and the student **MUST** finish testing with that test ticket in that same test session. If this does not occur, the student will not receive an Overall score and the student will not be eligible to exit EL/ML status.
- If the student has not started any testing, the student can be placed in a new test session at the new school and begin testing.

Maintaining a Secure Test Environment

A secure test environment includes:

- Protecting secure materials from view by other students, teachers, parents, school staff, or other individuals
- Refraining from sharing items or other secure test materials
- Administering the LAS Links only through the password-protected testing environment
- Restricting student access to content related resources, electronic devices, and photography technology
- Ensuring a **quiet** test-taking environment, void of **distractions**

Inappropriate Test Practices

Inappropriate test practices should be reported to the ELAC immediately.

- Changing the wording of directions, items, or response options
- Using prompting, including hand-over-hand, and referencing related materials or experiences
- Providing students with a preview of the LAS Links
- Providing or changing answers
- Teaching test content immediately before the test or the administration of an item

Inappropriate Test Practices

Inappropriate test practices should be reported to the ELAC immediately.

- Allowing the use of electronic devices or photography technology during testing
- Sharing test items, content, or forms, either in writing, verbally, or through photography, phone cameras, or recording devices with colleagues, parents, the public, or students
- Leaving any test materials or the Test Delivery System unattended
- Allowing an individual not employed by the district to administer the LAS

Inappropriate Test Practices

If a test proctor demonstrates inappropriate proctoring, such as providing or modifying student answers or using secure test materials inappropriately, the ELAC should contact the Student Assessment Office immediately at 860-713-6860.

Appeals

Testing irregularities include:

- interruptions in testing such as a fire drill or technical issue
- test accidentally submitted
- incorrect directions shared
- incorrect assessment accommodations provided
- a student who is eligible for the CTAA is tested
- use of a mobile device during testing

The ELAC provides necessary information via electronic submission on the LAS Links Appeals form for 2022-23.

CT LAS Links Appeals Form 2022-23 will be available by December 2022.

Appeals Process for Online Testing

The ELAC receives a link to the LAS Links Appeals Submission in an Appeals Process email from CSDE.

Connecticut LAS Links
Appeals Form - 2022-2023

THIS FORM IS TO BE COMPLETED BY THE DISTRICT ELAC ONLY!

- ELAC enters required information.
- Appeals are reviewed in a timely manner by CSDE.
- ELACs are notified when the request is completed or if more information is required.
- **Please stop testing the student in all domains** until the appeal is approved!

Actions to Resolve Appeals

Unlock: student re-enters a subtest with the same ticket starting where the left off but can access all items. For Listening and Speaking subtests the student **will not** be able to return to previously viewed items.

Unlock does not require documentation to be submitted.

Actions to Resolve Appeals

Regenerate: subtest is cleared, and student starts at item #1 **with a new test ticket**. A new password is generated across **all** subtests in the test session, which requires the printing of a new test ticket.

If a regenerate is requested, the student is expected to test that subtest in the existing test session.

If a test ticket switch occurs, one or both tests will be regenerated.

If another test session is created, the student will not receive an Overall score because merging of subtests is not possible for Form F.

Regenerate requires documentation be submitted.

Actions to Resolve Appeals

Invalidate: a subtest may be invalidated, which will appear as Invalid (INV) for reporting. Other subtests not indicated as invalid will be reported normally. If an INV is applied to one or more domains, the student will not receive an Overall score.

Invalidate requires documentation be submitted.

Appeals Documentation

The ELAC must first fax a signed letter on district/school letterhead to Performance Office Irregularities at 860-713-7033 before the appeal can be approved. The letter **must include**:

- The student's grade, SASID, and the name of the subtest;
- The date and a detailed explanation;
- The name of the proctor involved;
- A description of the discussion **with parents/guardians** explaining the irregularity and options offered; and,
- Procedures to ensure this type of irregularity is not repeated.

Looking for Gold

- 1 Billy and I walked along the dusty trail, pushing aside low-hanging tree branches. We could hear the sound of a river trickling along, so we knew we must be close. Soon, we came to a clearing.
- 2 In front of us we saw dozens of men sifting through the water. Some men were knee-deep, reaching into the water with shovels and lifting earth into a pail. Others were along the edge of the riverbank, carefully inspecting the ground. Some worked in pairs, others worked in teams, and some worked alone.
- 3 We quickly hurried forward to join the scene. Most of the men were as busy as beavers and didn't notice us. One man looked up, his face red by the sun.

Why do the boys travel to the river?

- ☐ They want to ask for some of the men's gold.
- ☐ They need to borrow the men's tools.
- ☐ They want to look for gold.
- ☐ They hope to get new jobs.
