LAS Links and the Texas ELPS: How do they Align?

LAS Links Forms C and D align with the ELPS.

A comprehensive study is available at www.LASLinks.com/Texas

ELPS	LAS Links
<p>Focus on “Cross-curricular second language acquisition” in each of the 4 domains: Speaking, Listening, Reading, Writing;</p> <ul style="list-style-type: none">• K-12 English• K-6 Spanish• Speaking: using grade-level content area vocabulary• Listening: learn academic vocabulary• Reading: respond to questions commensurate with content area and grade level needs• Writing: fulfill content area writing needs	Assesses in all 4 domains: Speaking, Listening, Reading and Writing
	K-12 English K-12 Spanish
	Provides test items in the areas of Math, Science, Technical Subjects, Reading, Language Arts and History
	Test results/Reports (for both English and Spanish LAS Links forms) provide stakeholders with detailed information regarding students’ language proficiency in content area vocabulary

● ● ● Achievement vs Language test

- Using academic achievement tests to determine language proficiency may result in inaccurate classifications.
- Language proficiency tests provide information on students' English language proficiency associated with content areas, while achievement tests reflect the knowledge associated with the content.
- To use an academic achievement score, schools, districts, and states would be required to disentangle progress in ELP performance from improvement in content area achievement to help them target the instructional support required to address the needs of ELs at all levels of ELP and academic achievement.
 - Such a task would require very sophisticated modeling and analyses to separate these two concepts.

Achievement Test	Language Proficiency Test
Measures knowledge attainment and intellectual competencies in a subject (i.e. Math, Science, Reading/Language Arts) at a point in time	Evaluates language proficiency in reading, writing, listening, and speaking
Evaluates the knowledge in a limited environment-content	Measures language topics that are appropriate for a language learner's level
Measures against grade level and content essential skills	Measures against language descriptors
Determines the level of education for which the student might be prepared	Focuses on authentic language- language that people use in the classroom and real-world situations

● ● ● LAS Links Test Items

LAS Links Second Edition test items are contextualized in content areas rather than the student's knowledge of content:

Between the Andes Mountains and the coast of Peru in South America, you can find a huge monkey, a giant flower, an enormous snake, and about fifty other gigantic plants and animals. These are not actual creatures but drawings carved into the surface of the ground. Besides images of creatures, there are hundreds of straight lines, triangles, and spirals. These drawings are known as *geoglyphs*.

Practice B

Complete the table with information from the passage. Copy the exact word or words used in the passage onto the space provided in your Student Answer Book. DO NOT write your answer in this book.

Look at the table. What belongs on line B?

Examples of Geoglyphs	
Shapes	lines, triangles, spirals
Animals	monkey, _____ (B) _____
Plants	flower

Progress Monitoring with *preLAS*

● ● ● Utilizing preLAS for Progress Monitoring

Consisting of an oral language component and a pre-literacy component, *preLAS* (Online and Paper) enables you to capture and hold the attention of young children with playful activities and colorful materials that help you monitor student progress along the stages of language acquisition (English and Spanish)

General Interpretation

Listed above is a selection of books that should provide an appropriate reading challenge for your student based on his or her performance on the LAS Links Reading test. The books have been chosen from reading lists published by various professional organizations and associations and have been reviewed to ensure content appropriateness. All of the books listed should be available at public libraries, school libraries, or bookstores.

The Lexile measure and Lexile range have been provided to assist you in determining other titles that may offer an appropriate challenge for your student. For more information about Lexile measures and additional reading materials, visit www.Lexile.com.

Pricing and On-Boarding: Progress Monitoring Forms

Advantages of Utilizing the LAS Battery for Progress Monitoring

There are many advantages to utilizing **preLAS Online** and **LAS Links Online** for the purpose of progress monitoring in English and Spanish. First, all test forms are available on the **DRC INSIGHT** platform which is the same platform you currently utilize for the purpose of English learner identification. This means that no new training is needed nor do you need to install any technology, it is already installed and ready to use! Additional advantages include:

ADVANTAGE 1

Allows stakeholders to compare language acquisition progress, in many cases, starting with the identification process. The assessments used to measure identification and progress monitoring are on the same vertical scale, ensuring that there is validity to the longitudinal results.

ADVANTAGE 2

Allows LEAs to progress monitor language acquisition for both English speakers, as well as, Spanish speakers in your two-way dual language program. Results will aid in evaluating program progress with a focus on academic language acquisition through math, science, language arts, and technical subjects.

ADVANTAGE 3

Many districts are extending dual language programs beyond elementary. LAS Links progress monitoring extends K-12 in English and Spanish.

ADVANTAGE 4

Monitored students will receive Lexile levels with recommendations in both English and Spanish for “just right” texts. This offers opportunities for campuses to build their dual language libraries.
